The Census Superintendent in Mysore.

To

The Chief Secretary to Government of H.H. the Maharaja of Mysore, Bangalore.

Sir,

With reference to your letter No.G. 18634/Legis.35-19-1 dated 13th February 1920, forwarding a copy of the Census Regulation of 1910, and inviting my suggestions, if any, in regard to similar Regulation to be framed for the purpose of the Census of 1921, I have the honour to state that the select Committee's Report on the British Indian Census Bill was presented to the Indian Legislative Council on the 11th February 1920 (vide Page 23 of Part III of the Fort St George Gazette of 24th February 1920) and that the same appears to have been passed by the Council on the 25th February (vide telegrams in the news-papers of the 27th idem). The Bill as amended by the select Committee is published at Pages 25-27 of the same issue of the Fort St George Gazette; and the same bill appears to have been approved without any further revision or alteration by the Imperial Legislative Council.

2. The Bill substantially reproduces the provisions of the previous Census Act; the only important changes made being.-

(i) that in the case of industrial and commercial concerns coming under the operations of the special Industrial Census, the qualifying limit has been reduced from 20 persons to 10 persons so as to enable more complete information being obtained with regard to industries

(ii) an addition has been made to the authorities who may be required to give assistance

(iii) a penalty has been provided for the disclosure of information received by a Census officer in the course of his duty.

3. Similar provisions may be embodied in the local Regulation.

4. With regard to the date up to which the removal, obliteration, alteration of, or injury to Census marks is prohibited (vide Section 10 (c) of the Regulation,) the date may be provisionally fixed as the 19th of August 1921, assuming that the Census will be taken on the night of the 18th February 1921 (the date provisionally selected). But if there should be any change in the latter date, the former will also have to be correspondingly altered; so as to allow an interval of six months between the date of the Census, and such date. The dates 1911 and 1910 should be changed to 1921, and 1920 respectively where-ever they occur.

5. The foregoing suggestions have been indicated in pencil in the appropriate places in the copy of the Regulation of 1910 --- received with your letter under reply, and which is herewith --- returned.
